

Canyon Ridge Preferred Equestrian Lots

The following Canyon Ridge lots are recommended for Equestrian use based on topography, soils, size and proximity to the Ranch Horse Facility. This is not meant to be a final approval for equestrian facilities on a purchased lot, nor is this list a full consideration of lots for equestrian facilities.

Pursuant to the Covenants and Design Guidelines, all equestrian facilities must be approved by the Design Review Board in advance of construction. Neither Canyon Ridge nor the developer, Rare Earth New Mexico LLC are responsible for any liability associated with design, construction or health of animals predicated on the approval of a site plan which includes equestrian facilities on any lot located on Canyon Ridge.
